General information on the Company

EFFEPILUX SICAV (“the Company”) was incorporated on April 25, 2008. The articles of incorporation of the Company were published in the “Mémorial C, Recueil Spécial des Sociétés et Associations du Grand-Duché de Luxembourg” (hereinafter the “Mémorial”) on May 27, 2008. The Company is registered with the Luxembourg Trade Register under number B 138 242.

Until January 27, 2011 the Company was an open-ended investment company organised as a “société anonyme” under the laws of the Grand Duchy of Luxembourg and qualified as a “Société d'Investissement à Capital Variable” (“SICAV”) and a “Fonds d'Investissement Spécialisé” under the Law of 13 February 2007 relating to Specialised Investment Funds (the "SIF Law"), with several separate Sub-Funds (individually a "Sub-Fund" and collectively the "Sub-Funds") pursuant to article 71 of the SIF Law.

By an extraordinary general meeting of Shareholders held on January 27, 2011, the Shareholder have decided to restructure the Company in order to change its corporate object from a SIF - SICAV under the Law of the 13 February 2007 to a self-managed SICAV Part I of the modified Law of 20 December 2002 on Undertakings for Collective Investment.

The Shareholder also decided to change the name of the Company from EFFEPILUX to EFFEPILUX SICAV. Such amendment has been published on February 25, 2011. The articles of incorporation have been deposited and are available for inspection at the Registre de commerce et des sociétés of Luxembourg.

The Company is governed by the provisions of Part I of the amended Luxembourg Law of December 17, 2010 relating to Undertakings for Collective Investment (the “2010 Law”).

The articles of incorporation have been amended for the last time on May 29, 2012 according to the 2010 Law. Such amendment has been published on the Memorial on June 15, 2012.

The Board of Directors may issue shares of different classes (individually a “Class” and collectively the "Classes") in each Sub-Fund. A separate pool of assets is maintained for each Sub-Fund and is invested in accordance with the investment objective applicable to the relevant Sub-Fund. As a result, the SICAV is an "umbrella Fund" enabling investors to choose between one or more investment objective(s) by investing in one or more Sub-Fund(s).

Report of the Board of Directors

Effepilux Sicav - Investimenti Breve Termine

The 2013 was marked by central banks' decision for large liquidity; European Central Bank cut rates twice from 0.75% to 0.25%.

The asset under management at year end totaled 99.03 mln euros with a positive annual performance of 0.76% return against a benchmark of +0.53%.

Effepilux Sicav - Titoli di Stato ed inflazione

Year 2013 was dominated by the softening of the QE and fears of strong Tapering, which determined a rise in government yield worldwide: the 10y treasury ended at 3.03% versus 1.75% at the end of 2012, the bund at 1.94% versus 1.44% while the Japanese bond kept stable at 0.74% versus 0.77%. On the contrary the stability of the Euro Area, strongly supported by ECB, allowed a reduction of the rates in the peripheral countries: Spanish bonds yield lowered to 4.15% from the initial 5.26% and the Irish bonds yield lowered to 3.3% from the initial 4%.

At year end the Sub-Fund migrated 435 mln euros out of a total of 517 mln euros of assets into two managed accounts which are operated on passive basis, i.e. tracking a benchmark. This move was suggested mainly to minimize costs and deviations from the market. The residual 82 mln euros are still invested into two Funds with a moderate currency exposure.

Of the total assets about 18% are invested in inflation linked products in order to hedge this macro-variable.

The asset under management at year end totaled 516.88 mln euro with a negative annual performance of 0.35% return against a benchmark of +0.23%. This underperformance is due to a slight currency exposition, mainly versus dollar, currency generally considered underestimated.

Effepilux Sicav - Corporate IG Mondo

While the 2012 was spectacular in terms of returns and spread tightening, the 2013 was also a good year on the whole though more heterogeneous and with less brilliant performances.

During the 2013 the IG Corporate bonds have been positively impacted, all along the year, by the search of high interest rates, found mainly in the peripheral countries of the euro zone and in the countries with low ratings, and negatively impacted, especially the US corporate bonds, by the rise of the US treasury rates as a result of the tapering of the US Quantitative Easing.

At year end the Sub-Fund migrated 338 mln euros out of a total of 392 mln euros of assets into a managed account which is operated on passive basis, i.e. tracking a benchmark, by Blackrock; the move will result into lower management costs and minimum deviations from the market behavior.

The remaining 53 mln euros were invested in a Fund actively managed.

The asset under management at year end totaled 391.79 mln euro with a positive annual performance of 0.14% return against a benchmark of -0.27%.

Effepilux Sicav - Corporate High Yield ed Obbligazionario Paesi emergenti

The 2012 overriding theme was the search for yield that led to an outperformance of the least well-rated segments, and notably High Yield. This happened in the United States as well as in the Euro zone where the peripheral countries outperformed the core ones.

At the beginning of 2013 the trend was interrupted due to the political tensions in Italy and to the Cyprus bailout, which revamped investors' fears about the future of the euro zone. Later on in the year, during the summer, the credit market was affected by the rapid rise in US long-term interest rates; the 10-year interest rate raised 130bp from May to August. The US credit suffered more than the euro credit; in terms of rating classes, High Yield held up much better than IG thanks to its lower sensitivity to the interest rate effect. The Emerging market suffered from substantial capital withdrawals, leading to currency crises; the worst affected countries were those with current-account deficits, i.e. India, Indonesia, Brazil, South Africa and Turkey. However, most of the EM countries are in a better situation than during the emerging-country crises of the 1990s, notably thanks to large foreign exchange reserves.

The above events resulted into a positive HY benchmark performance, +6.78%, and a negative performance of the EM benchmark, -3.55%.

All the assets are invested in Funds, whose benchmarks are not perfectly matching the Sub-Fund one. The current dimension of the Sub-Fund, the complexity of the investment ground and, in some cases, the low liquidity of the market, do not recommend a move to a managed account.

The asset under management at year end totaled 149.48 mln euro with a positive annual performance of 0.18% return against a benchmark of +1.3%.

EFFEPILUX SICAV

Société d'Investissement à Capital Variable

Report of the Board of Directors (cont.)

Effepilux Sicav - Azionario

The signs of recovery that appeared in 2013, and their associated expectations of monetary policy tightening (US, UK), were all factors pointing to favoring a rotation bond to equities. The performances of stock market indices were positive in all developed countries and excellent in the United States (+30% S&P500, +37% Russell), and in Japan (+57% for the Nikkei). They were worst and very mixed in emerging markets (-2% Mexico, -15.5% Brazil, +9% India, -7% China), affected by the concerns on the tapering of the Fed's purchase program.

Confidence returned in developed countries; the Risk premium decreased in line with the declining risk aversion. The VIX and VSTOXX volatility indices ended the year at historically low levels.

The good performances by European indices were achieved in the last quarters of the year, especially in Q3 when the Euro Stoxx even outperformed the S&P, with a yearly performance of 20.5%. On the whole, the peripheral countries benefited from the renewed risk appetite. The best examples are the Greek Athex (+28%) and the Irish ISEQ (+34%). Against the backdrop of elections in Italy, the MIB was negatively affected in Q1, but nevertheless showed a year end performance of +16.6%. The Spanish IBEX 35, increased 21% testifying the Spain's relatively positive economic momentum that shows improving competitiveness and export market share.

At year end the Sub-Fund migrated 246 mln euros out of a total of 338 mln euros of assets into a managed account which is operated on passive basis, i.e. tracking a benchmark, by State Street; the move will result into lower management costs and minimum deviations from the market behavior. The remaining 92 mln euros were invested in Funds actively managed and in ETF.

The asset under management at year end totaled 338.02 mln euro with a positive annual performance of 19.57% return against a benchmark of +23.73%. The difference is mainly due to difficulty of perfect currency hedge on EM investments.

2.1 Presentation of financial statements

The financial statements are presented in accordance with legal reporting requirements in Luxembourg, relating to undertakings for collective investment.

2.2 Valuation of investments

2.2.1 The value of any cash on hand or on deposit bills and demand notes and accounts receivable, prepaid expenses, cash dividends, interest declared or accrued and not yet received, all of which are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

2.2.2 Securities listed on a recognised stock exchange or dealt on any other Regulated Market that operates regularly, is recognised and is open to the public, will be valued at their last available prices, or, in the event that there should be several such markets, on the basis of their last available prices on the main market for the relevant security.

2.2.3 In the event that the last available price does not, in the opinion of the Directors, truly reflect the fair market value of the relevant securities, the value of such securities will be defined by the Directors based on the reasonably foreseeable sales proceeds determined prudently and in good faith.
