The Company is registered with the Luxembourg Trade Register under number B 138 242.

Until January 27, 2011, the Company was an open-ended investment company organised as a *société anonyme* under the laws of the Grand Duchy of Luxembourg and qualified as a *Société d’Investissement à Capital Variable* (“SICAV”) and a *Fonds d’Investissement Spécialisé* under the amended Law of February 13, 2007 relating to Specialised Investment Funds (the “SIF Law”), with several separate Sub-Funds (individually a “Sub-Fund” and collectively the “Sub-Funds”) pursuant to article 71 of the SIF Law.

By an extraordinary general meeting of Shareholders held on January 27, 2011, the Shareholder decided to restructure the Company in order to change its corporate object from a SIF - SICAV under the amended SIF Law to a self-managed SICAV Part I of the amended Law of December 20, 2002 on Undertakings for Collective Investment.

Report of the Board of Directors

Effepilux Sicav - Investimenti a breve termine

The year 2016 was marked by the increasing amount of government bond turning with a negative yield with Central Banks driving the curve shape, with a steepening in the Euro area in the last months of year.

The Investimenti Breve Termine portfolio was invested in Italian short-term bonds with maturities ranging from 6 to 9 months; as bonds were approaching maturities the manager kept rolling them up the curve in order to improve the carry and roll down profile of the portfolio.

The Sub-Fund delivered a net return of -0,04% in line with the benchmark that registered a -0,0%.

The year-end Asset Under Management stood at €86,6 mln.

Effepilux Sicav - Titoli di Stato ed inflazione

2016 has brought mixed signals, although, on balance, positive news has prevailed. Despite severe market stress in January and February (Brexit, Italian Referendum and the US elections), business and household confidence in the euro area has remained remarkably stable.

Inflation acceleration gained traction, mainly in US where the job market delivered strong signals for a tightening market. ECB and the FED started, in a different manner, a less accommodative monetary policy with an increase of the target rate in US and with a reduced pace of the monthly asset purchase in Europe.

The main positive contributors to the performance of the inflation linked portfolio were: event driven strategies on China/the US Presidential election and interest rate strategies on Japanese rates and sovereign spread (Btp and Bund); main negative contributors were: credit spread duration (short positioning with option derivatives), trend strategies focused on Germany, strategies on Australian and Canadian interest rates and short positioning on US interest rates.

The managed accounts of the Sub-Fund, performed in line with their benchmarks.

Overall the Sub-Fund closed the year with 2,38% return versus the 2,99% of benchmark.

The year-end Asset Under Management stood at €434,5 mln.

Effepilux Sicav - Corporate IG Mondo

Credit spreads tightened in the 2016 spurred by the extended accommodative policy put in place by the main central banks. 2016 has been a year of political shocks, financial markets volatility and concerns about CEE.

The low but stable growth environment, which is creditor-friendly, is expected to remain even in the 2017, but the spreads are very close to the minimum, leaving not very much space to deliver gains.

The ECB's corporate sector purchase program has been the dominant driver in credit markets in 2016 and is set to remain in place in the year ahead.

The credit market saw the third rally in this cycle, started in February in US fuelled by the global income trade.

The tax reform promised by Mr. Trump should lower net issuance and tighten US credit spread.

The last months of the 2016 saw an increase of US company leverage ratio that pose some worries to further bullish positions.

The managed account of the Sub-Fund performed in line with its benchmark.

Overall the Sub-Fund closed the year with a 5,06% return versus 5,20% of benchmark.

The year-end Asset Under Management stood at €342,5 mln.

Effepilux Sicav - Corporate High Yield ed Obbligazionario Paesi emergenti

2016 was a very volatile year for the riskier asset classes; emerging markets were not an exception experiencing heavy out- and in-flows driven by the risk appetite of investors addressed mainly by the growth expectations, the new US administration and the rise of interest rates.

The broad rally in risky asset in the last months of the 2016 reflects a positive consensus on the earning's growth acceleration.

The increase of the US interest rates by the Fed and the trade barriers linked to the new policies of Mr. Trump seem not to hurt so much the asset class that obtained a good performance in December and a positive inflow picture.

Report of the Board of Directors (continued)

High Yield credit spread tightened during the year, spurred mainly by the energy sector that gained from an upward oil price path.

The credit market saw the third rally in this cycle, started in February in US fuelled by the global income trade.

Interest rates increases could threatened the next pattern as the default rates were very close during the 2016 to the minimum.

Overall the Sub-Fund closed the year with 8,75% return versus 10,85% of benchmark.

The year-end Asset Under Management stood at €212,4 mln.

Effepilux Sicav - Azionario

2016 started with a severe downturn in the main equity indexes in January and in February. Improving macro indicators and confidence levels sustained a recovery in the developed market equity indexes that became strong in the last two months of the year. Worries about consequences of Fed tapering after more than six years of accommodative stance, were wiped out by upward growth revisions and by an improving inflation environment sustained by a strong job market.

MSCI All Country Index was up 8,48% while the EM delivered +11,27% after the US presidential election surprise in early November drove the index down with a selloff by investors.

Japan was flat with the Topix index while the MSCI Europe delivered 2,63% disappointing most of the investment recommendations to overweight Europe area in a global equity portfolio.

The Defensive funds with embedded options that we have in portfolio, in the Euro and US area did their job hedging the downside risk, but did not participate to the full upside movement, as expected.

The low, but stable growth was the main theme in the 2016 and sustained the cyclical sector and the value indexes.

SSGA implemented a full replication investment methodology in order to deliver a performance as close as possible to the benchmark which is monthly reweighted (44% MSCI Europe, 33% MSCI North America, 23% MSCI Pacific) hedged back to Euro. The portfolio performed in line with its benchmark: overall the Sub-Fund closed the year with 6,93% return versus 7,27% of benchmark with Asset Under Management adding up to €581.6 mln.

Responsibility of the réviseur d'entreprises agréé

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Deloitte.

2 - Significant accounting policies

2.1 Presentation of financial statements

The financial statements are presented in accordance with generally accepted accounting principles and legal reporting requirements in Luxembourg, relating to undertakings for collective investment.

2.2 Valuation of investment in securities

2.2.1 The value of any cash on hand or on deposit bills and demand notes and accounts receivable, prepaid expenses, cash dividends, interest declared or accrued and not yet received, all of which are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

2.2.2 Securities listed on a recognised stock exchange or dealt on any other Regulated Market that operates regularly, is recognised and is open to the public, are valued at their last available prices, or, in the event that there should be several such markets, on the basis of their last available prices on the main market for the relevant security.

2.2.3 In the event that the last available price does not, in the opinion of the Board of Directors of the Company, truly reflect the fair market value of the relevant securities, the value of such securities is defined by the Board of Directors of the Company based on the reasonably foreseeable sales proceeds determined prudently and in good faith.

2.2.4 Securities not listed or traded on a stock exchange or not dealt on another Regulated Market are valued on the basis of the probable sales proceeds determined prudently and in good faith by the Board of Directors of the Company.

2.2.5 The liquidating value of futures, forward or options contracts not traded on exchanges or on other Regulated Markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors of the Company, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward or options contracts traded on exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures, forward or options contracts are traded by the Company; provided that if a futures, forward or options contract could not be liquidated on the day with

respect to which Net Assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors of the Company may deem fair and reasonable.

2.2.6 Money Market Instruments not listed or trade on a stock exchange or not dealt with on another Regulated Market are valued at their face value with interest accrued.

2.2.7 In case of short term instruments which have a maturity of less than 90 days, the value of the instrument based on the net acquisition cost, is gradually adjusted to the repurchase price thereof. In the event of material changes in market conditions, the valuation basis of the investment is adjusted to the new market yields.

2.2.8 Interest rate swaps are valued at their market value established by reference to the applicable interest rates curve. Swaps pegged to indexes or financial instruments are valued at their market value, based on the applicable index or financial instrument.
