General information on the Company

EFFEPILUX SICAV ("the Company") was incorporated on April 25, 2008. The articles of incorporation of the Company were published in the "Mémorial C, Recueil Spécial des Sociétés et Associations du Grand-Duché de Luxembourg" (hereinafter the "Mémorial") on May 27, 2008. The Company is registered with the Luxembourg Trade Register under number B 138 242.

Until January 27, 2011 the Company was an open-ended investment company organised as a "société anonyme" under the laws of the Grand Duchy of Luxembourg and qualified as a "Société d'Investissement à Capital Variable" ("SICAV") and a "Fonds d'Investissement Spécialisé" under the law of 13 February 2007 relating to Specialised Investment Funds (the "SIF Law"), with several separate Sub-Funds (individually a "Sub-Fund" and collectively the "Sub-Funds") pursuant to article 71 of the SIF law.

By an extraordinary general meeting of Shareholders held on January 27, 2011, the Shareholder have decided to restructure the Company in order to change its corporate object from a SIF - SICAV under the Law of the 13 February 2007 to a self-managed SICAV Part I of the modified Law of 20 December 2002 on Undertakings for Collective Investment.

The Shareholder also decided to change the name of the Company from EFFEPILUX to EFFEPILUX SICAV. Such amendment has been published on February 25, 2011. The articles of incorporation have been deposited and are available for inspection at the Registre de commerce et des sociétés of Luxembourg.

The Company is governed by the provisions of Part I of the Luxembourg Law of December 17, 2010 relating to Undertakings for Collective Investment (the "2010 Law").

The articles of incorporation have been amended for the last time on May 29, 2012 according to the 2010 Law. Such amendment has been published on the Memorial on June 15, 2012.

The Board of Directors may issue shares of different classes (individually a "Class" and collectively the "Classes") in each Sub-Fund. A separate pool of assets is maintained for each Sub-Fund and is invested in accordance with the investment objective applicable to the relevant Sub-Fund. As a result, the SICAV is an "umbrella Fund" enabling investors to choose between one or more investment objective(s) by investing in one or more Sub-Fund(s).

Report of the Board of Directors

Effepilux Sicav - Investimenti Breve Termine (previously Monetario)

The decision of ECB for large liquidity in “whatever it takes” style, assumed in order to preserve the Euro Area from speculation, influenced enormously the yield of the sub-fund.

The benchmark (Euribor 12m) fell from 2% to 0.54% in 2012, according to the quantitative easing mood.

The Sub-Fund overperformed the benchmark, thanks to a moderate overexposure to Italian short term bonds with a duration of approximately 1 year.

At the end of the year the Sub-Fund was invested in funds for around 38.5 mln euro.

The annual performance of the Sub-Fund was 1.83% and the asset under management reached 80.37 mln euro at year end.

Effepilux Sicav - Titoli di Stato ed inflazione

2012 was a complex year for the Sub-Fund: an impressive volatility in different instruments of the asset class pushed yields of safe-countries bonds to a minimum, while peripheral countries reached new volatility peak in June when the Sub-Fund reduced the duration of the direct investments to pursue a de-risking approach for the whole portfolio. Long duration bonds were sold for 3-5 year duration investments. This strategic adjustment drove to a risk reduction without a significant impact on the yield. At the year-end, the direct investments weighted around 43.7 mln euro, had a 2.51 years duration and were mainly invested in Italian sovereign bonds.

With the ten years bund at 1.15% and the ten years U.S. treasury in the 2.30% area, the Sub-Fund faced the challenging research of a positive real return. More than 18% of the total investments are inflation linked product (fund and bond), for an active hedging.

The managed account investments show a 8.16% return with a 6.83 years duration substantially in line with the benchmarks.

The annual performance of the Sub-Fund was 8.91% and the asset under management reached 498.60 mln euro at year end.

Effepilux Sicav - Corporate IG Mondo

The whole sector experienced a high volatility across the year. The issued amounts were constantly well absorbed by the market despite spikes on government spreads and CDS. ECB interventions, jointly with FED and IMF, well mitigated the credit crunch risk, driving bond market to a general recovery still in act because of high demand for free risk assets.

All the products - managed account and funds - performed well above the 8%, driving to a final result in line with the benchmarks notwithstanding a negative performance of a product hold in portfolio to hedge credit risk.

A product specialized on subordinate bank's debt, which performed around 38%, was sold to decrease the risk. The performance was marginally negatively impacted by the hedging of the exposure to the US currency that was about 114 mln euro equivalent.

The annual performance of the Sub-Fund was 8.02% and the asset under management reached 371.48 mln euro at year end.

Report of the Board of Directors (cont.)

Effepilux Sicav - Corporate High Yield ed Obbligazionario Paesi emergenti

The high yield and emerging bond market closed 2012 on high note; the positive tone was registered in the performance of the sub fund. These asset classes offered outperforming returns with a low volatility compared to other traditional asset classes like the sovereign bonds.

High yield investments, 70 mln euro at the year end, remained a very attractive asset class being characterized by high coupon and a low expected default rate (about 2%-3% according to rating agencies).

In 2012 the emerging market corporate debt had a very high performance with spread narrowing over 130 bps so driving the spread down to 302 bps at year end.

The emerging market funds performed accordingly; despite the high correlation with the benchmark, 3 out of 4 of the funds of the sub fund outperformed the benchmark.

The 2012 performance confirmed the 2011 forecast that these investments would have deployed their full force in 2012 -2013.

The annual performance of the Sub-Fund was 16.17% and the asset under management reached 144.16 mln euro at year end.

Effepilux Sicav - Azionario

The first part of the year was completely dominated by the heavy atmosphere of sovereign debt crisis with a steady and persistent outflow from all sectors to safe heaven asset classes. The second half showed a strong recovery well supported by positive news coming from Central Banks interventions. December saw the DOW JONES near an all time high.

Starting from the 2008 the equity markets in different geographical areas performed at different speeds in terms of relative value; while the S&P and the emerging market recovered almost completely, the European and mostly the Pacific Area showed some delay.

In the second half of the 2012 the sub fund increased the Pacific and European exposure due to the cheap PE ratio related to the US and EM indicators.

The annual performance of the Sub-Fund was 13.64% and the asset under management reached 310.33 mln euro at year end.

The financial statements are presented in accordance with legal reporting requirements in Luxembourg, relating to undertakings for collective investment.

2.2 Valuation of investments

2.2.1 The value of any cash on hand or on deposit bills and demand notes and accounts receivable, prepaid expenses, cash dividends, interest declared or accrued and not yet received, all of which are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
