## General information on the Company

Effepilux Sicav (the “Company”) was incorporated on April 25, 2008. The articles of incorporation of the Company were published in the *Mémorial C, Recueil des Sociétés et Associations du Grand-Duché de Luxembourg* (hereinafter the “Mémorial”) on May 27, 2008. The Company is registered with the Luxembourg Trade Register under number B 138 242.

Until January 27, 2011, the Company was an open-ended investment company organised as a *société anonyme* under the laws of the Grand Duchy of Luxembourg and qualified as a *Société d’Investissement à Capital Variable* (“SICAV”) and a *Fonds d’Investissement Spécialisé* under the amended Law of February 13, 2007 relating to Specialised Investment Funds (the “SIF Law”), with several separate Sub-Funds (individually a “Sub-Fund” and collectively the “Sub-Funds”) pursuant to article 71 of the SIF Law.

By an extraordinary general meeting of Shareholders held on January 27, 2011, the Shareholder decided to restructure the Company in order to change its corporate object from a SIF - SICAV under the SIF Law to a self-managed SICAV Part I of the amended Law of December 17, 2010 on Undertakings for Collective Investment in Transferable Securities.

The Shareholders also decided to change the name of the Company from Effepilux to Effepilux SICAV. Such amendment has been published in the *Mémorial C* on February 25, 2011. The articles of incorporation have been deposited and are available for inspection at the *Registre de Commerce et des Sociétés of Luxembourg*.

The Company is governed by the provisions of Part I of the amended Luxembourg Law of December 17, 2010 relating to Undertakings for Collective Investment in Transferable Securities (the “2010 Law”).

The articles of incorporation have been amended for the last time on August 2, 2016 according to the 2010 Law. Such amendment has been published in the *Mémorial C* on September 13, 2016.

The Board of Directors of the Company may issue shares of different classes (individually a “Class” and collectively the “Classes”) in each Sub-Fund. A separate pool of assets is maintained for each Sub-Fund and is invested in accordance with the investment objective applicable to the relevant Sub-Fund. As a result, the Company is an “umbrella Fund” enabling investors to choose between one or more investment objective(s) by investing in one or more Sub-Fund(s).

The Board of Directors of the Company has appointed Fondaco Lux S.A. which qualifies as a Chapter 15 management company pursuant to the 2010 Law in order to act as its designated management Company pursuant to the management Company Agreement dated August 2, 2016.

## Information to the Shareholders

The annual general meeting of Shareholders of the Company is held in Luxembourg on the third Tuesday of April of each year at 2 p.m. or, if such day is not a business day in Luxembourg, on the next business day. All general meetings of Shareholders notices are sent to the registered Shareholders by post at least 8 days prior to the meeting. Notices will be published in the Mémorial and in a Luxembourg newspaper (if legally required) and in other newspapers as the Board of Directors of the Company may decide. Such notices will include the agenda and specify the place of the meeting. Legal requirements as notice, quorum and voting at all general and Sub-Fund or Class meetings are included in the articles of incorporation Meetings of Shareholders of any given Sub-Fund or Class shall decide upon matters relating to that Sub-Fund or Class only.

The annual report, including the audited financial statements may be sent to the registered Shareholders and is made available for public inspection at the registered office of the Company and the Domiciliary Agent.

The financial year ends on December 31 of each year.

## Report of the Board of Directors of the Company

### Effepilux Sicav - Investimenti a breve termine

The investment objective of Investimenti Breve Termine is to preserve invested capital in the short and medium term through investment in short term fixed income instruments. The sub-fund was invested 52% in a mandate managed by Amundi and 48% in a selection of short-term, third-party bond funds with a broader mandate managed by Fondaco Lux.

Regarding the mandate managed by Amundi, the portfolio had an absolute negative performance in 2022, -2.44%, compared to 1.11% for the benchmark mainly due to the rise of interest rates, especially on the short end of the yield curves; there was also a negative impact from the long position on Italian government bonds.

In terms of portfolio positioning during the year, on the assumption that rising interest rates would negatively affect risky assets, Amundi lowered the exposure to corporate bonds, increasing exposure to government debt and selling assets focused on Euro High Yield and Emerging Markets Short Term. At the end of the year, the main exposure was to government bonds (around 92,5%, mostly Spanish, Italian, and Portuguese) with limited exposure to Investment Grade corporate bonds (approx. 7,5%). Moreover, as bonds approached maturity, the fund portfolio manager continued to keep rolling them up the curve in order to improve the carry and roll down profile of the portfolio. The portfolio duration was 0,5 years at the end of the year.

The Sub-Fund is also invested in a selection of very diversified short-term bond funds taking into account the ESG profile of the products. Performances have been negative for all of them, with losses between -2% and -4.5%, as short term rise in interest rates impacted severely also these strategies.

During the year, the Sub-Fund was impacted by several redemptions. At the beginning of the year, a redemption of 224Mln was made (ca.58% of AUM), followed by, other redemptions were made during Q2 and Q3 for 63.8Mln. Net YTD out flow was 288Mln (ca.75% of AUM).

The entire Sub Fund delivered a performance YTD of -2.89% with a difference of -3.96% versus the benchmark which returned 1.07%. The year-end Assets Under Management stood at € 90.11Mln.

### Effepilux Sicav - Titoli di Stato ed inflazione

After a tumultuous 2022, which was a bearish year for traditional fixed income and equity markets, with higher inflation and interest rates along with the strong dollar, the Sub-Fund closed the year with a return of -8.70% versus -5.99% of the benchmark. At year end Assets under Management stood at € 819.49 Mln with a net outflow of €152.27Mln.

The sub-fund has been managed in three different components:

- i) investment grade global government bonds;
- ii) inflation linked bonds;
- iii) absolute return bonds.

i) At the end of 2022 the investment grade global

government bond portfolio, managed by Credit Suisse (16.50% of the sub fund portfolio), presented a Yield to Worst for the portfolio of 3.62%, while the portfolio featured a modified duration of 6.61 years and had an average (S&P) credit rating AA.

The portfolio closed 2022 with a negative performance of -13.44% (in EUR) compared to a benchmark performance of -13.42%. The portfolio asset class is Government Bonds and is managed against the following strategic benchmark: 55% Bloomberg Barclays Euro-Agg. Treasury (TR) and 45% Bloomberg Barclays US Treasury (TR, in EUR), with strategic weights rebalanced in August 2022. The first benchmark had a -18.46% performance during 2022 while the second one had a -6.72% (in EUR).

During 2022, aggressive monetary policy tightening across the world, elevated inflation, and significant geopolitical uncertainty were unfavourable conditions for the asset class, leading to an upward shift at an unprecedented pace of the USD and the EUR yield curves, such rise in interest rates, across the whole curve, indeed, negatively contributed to the benchmark total return for as much as approximately -19%. This was partially offset by a positive FX contribution (almost +3%) and carry contribution (also almost +3%). The USD exposure of the portfolio managed by Credit Suisse is also partially hedged with a dynamic strategy based on options, adjusted approximately every three months. The strategy contributed positively to the overall performances during the year.

## Report of the Board of Directors of the Company (continued)

### ii) Regarding the inflation linked bond portfolio

managed by Amundi (ca.25.6% of the sub fund), performance shows an absolute negative annual rate of -9.73%, mainly due to the rise in interest rates, slightly below the benchmark return of -9.66%.

In terms of alpha contributors, the main performance drivers were:

- dynamic management of the duration, slightly negative (in order of UK, EU, and USA rates)
- active management of the spread duration, also to some extent negative (e.g., via Itraxx Crossover, CDX NA HY)
- a positive contribution from currency strategies (e.g., dynamic management of EUR/USD) including curve strategies within the dollar bloc, i.e., Canadian rates steepening 2-10y and Australian rates flattening 3-10y.

Inflation/growth trends and their effect on monetary tightening have been the most important market drivers. While domestic demand has been stronger-than-expected, especially in Europe (as consumer spending of retailers remain quite sustained during the year), concerns over economic growth deceleration in the US and Europe persist. This, coupled with risk of profit recession, means investors should turn cautious on credit, and “enhance” hedges. On the other hand, yield curves in select Domestic Markets (DM) presented opportunities amid an evolving monetary policy narrative, which also allowed us to adjust our views on the USD.

- ### iii) Moving to the absolute return component, a part of the portfolio (ca. 38% of the sub fund) managed by Fondaco SGR, this element showed a negative return of -5,53%, lower than the annual target return represented by Euribor (+3%, which was reached in both 2019 and 2020).

Some of the investment themes in portfolio were heavily penalized during 2022, with double digit losses on their respective indexes. Emerging market bonds, Euro Periphery and banking bonds were the main detractors, due to the double effect of higher level of rates and spreads. Long bond portfolio losses accounted for nearly 10%, while short hedge provided nearly 4% of total yearly contribution. Currency diversification also had a small positive effect, around 0,5%.

Emerging markets indexes had a yearly return of -11,6% on local markets (JGENVUUG Index) and notably -17.8% on hard currency bonds (JPGCCOMP Index). Since their average weight on portfolio was respectively around 8 and 18%, they were the first negative contributor on portfolio, accounting for -3.5% of the total yearly performance.

Peripheral bonds were the second negative contributor, with a total contribution around -3%. BTP-Bund spread was at 130 at the beginning of the year, closing above 250 at the end of the year. In absolute terms, 10-year BTP yield started at 1,30%, closing the year above 4,70%, for the joint effect of higher spreads and higher level of core rates.

Long inflation linked BTP were the only bonds providing a small positive net contribution, despite rising real yields and rising country spread risk. The other exceptions were supranational bonds denominated in Chinese Renminbi and Brazilian Real as well as government bonds issued by Mexico and Singapore. These bonds were also small positive contributors because the positive currency and carry effect was bigger than the negative price effect.

The overall portfolio duration has been very dynamically managed, ranging between 1,5 and 4,5 years of overall net long duration which was reached only in October.

Forex exposure has been more stable and balanced between low yield currencies like Yen, Renminbi, Singaporean and Canadian Dollar and Malaysian Ringgit together with Emerging Markets high yielder like Mexico, Brazil, Russia, Indonesia, and Hungary. Total net position in foreign currency was held in a narrow range from 12 to 15% of total portfolio, providing a small net positive yearly contribution. Russian currency exposure was hedged in February, before the start of the war, and was successfully dynamically managed until May, when the EIB bond denominated in the Russian Ruble was sold. Brazil's Rial exposure was closed immediately after the elections.

YTM of portfolio at the year-end was close to 5%, despite the short duration and the very limited leverage. Main investment themes were Government bonds issued by Italy, Spain, and Greece (24% of portfolio, of which only 2% in Greece), Financial bonds (29%, of which 10% on Euro Periphery and 19% on global SI-FIs, including 4% ETF on AT1) and Emerging market bonds (18% in hard currencies and 7% in local currencies). Portfolio allocation was completed by non-Euro developed countries government bonds in local currencies (6%), long German 15 years Bund (3%) and money market instruments (10% invested in Bots and Schatze). Pure liquidity was at 3%.

## Report of the Board of Directors of the Company (continued)

The rest of the Absolute Return component (ca. 21.12% of the sub fund), managed by Fondaco Lux, was invested in a selection of third-party funds managed by large asset managers, with a broad flexible fixed income mandate, with different risk/reward profiles. Only one target fund, DNCA generated a positive return of ca. 6.66% during the year. The fund managed by Pimco and BlackRock recorded the most negative performance (ca. -9.95% and ca.-8.14% respectively). The funds managed by Pictet, Mercer and Axa lost respectively ca.-7.72%, ca.-7.09% and ca.3.39%. Despite the large heterogeneity of these funds and the active style employed, the negative returns were mainly driven by the monetary policy implemented in Europe, the USA and the emerging markets.

### Effepilux Sicav - Corporate IG Mondo

The vast majority of the sub-fund (ca.82%) is invested in a portfolio managed by Blackrock which is passively replicating the following benchmark: 10% Bloomberg Barclays MSCI Sterling Corporate SRI Euro-hedged; 45% Bloomberg Barclays MSCI US Corporate SRI Euro-hedge; 45% Bloomberg Barclays MSCI Euro Corporate SRI. Overall, the Sub-Fund closed the year with -15.45% return versus -13.67% for the benchmark. The year-end Assets under Management stood at € 238.4 Mln with a net inflow of €61.5Mln.

The first quarter of 2022 was characterized by a sharp increase in volatility across financial markets. Concerns around inflation and a more hawkish narrative from the US Federal Reserve (Fed), as well as escalating geopolitical tensions between Russia and Ukraine unsettled markets. Markets tumbled as investors tried to process the enormity of the situation and the potential economic impact of sanctions on Russia – a significant exporter of commodities. Sentiment for risk assets in March was driven by oscillating optimism on the Russia-Ukraine conflict and hawkish central bank commentary. Notwithstanding geopolitical uncertainties and the potential economic implications, policymakers have suggested that they consider upside inflation risk as the more pressing issue to tackle unless the growth outlook markedly worsens. In the US, the Fed raised the Federal Funds target rate by 0.25%, as expected.

April was a difficult month for investors as geopolitical and macroeconomic concerns remained in focus. The conflict in Ukraine, renewed lockdowns in China, as well as the prospect of significantly tighter US monetary policy all loomed over sentiment. The market narrative in May shifted from higher inflation concerns to slowing growth risks as the moderation of global growth became more apparent. The US Fed and the European Central Bank (ECB) nonetheless signalled tighter monetary policy ahead. Fed policymakers announced a 50 basis points (bps) increase in the Federal Funds target rate during the month of May. In June, the market narrative moved somewhat from a focus on the Fed's rapid tightening path to concerns of slowing growth and rising recession fears. Inflation remained stubbornly high and continued to pose a major issue for central banks.

Developed market government bond yields rallied in July as recession concerns took hold. Economic data released over the month provided further evidence that the global economy was heading for a slowdown. Financial markets moved to price in interest rate cuts from the Fed in 2023, against the backdrop of weakening growth. In Europe, the ECB unveiled significant changes to its monetary policy stance, raising key interest rates for the first time in over a decade - all three key interest rates were increased by 0.5%, taking the deposit facility, refinancing operations and marginal lending facility rates to 0%, 0.5% and 0.75% respectively, meaning that they are all now out of negative territory.

In August, developed market government bond yields rose sharply as runaway inflation continued to dominate central bank actions globally, despite the inherent risk of weaker growth. Economic data released over the month struck a recessionary tone and provided further evidence that the global economy was slowing. In September, global bond markets were characterized by significant volatility. Concerns of a global recession and monetary tightening weighed on investor sentiment. Turmoil in the UK government bond market towards the end of the month also led to heightened volatility globally. Meanwhile, global inflationary pressures remained, with core inflation (excluding food and energy) well above central bank targets in most countries.

In Europe, the "front-loading" of rate hikes continued in September, with the ECB raising rates by a historic 75bps in the face of persistently high inflation. The Fed hiked by 75bps three times during the quarter leaving the Federal Funds target rate at 3.25%-3.50% by the end of Q3.

## Report of the Board of Directors of the Company (continued)

Despite entering October with heightened levels of volatility, investor sentiment in global bond markets was much more positive. The ECB Governing Council increased all three of the key ECB interest rates by 75bps. Global bond markets rallied in November as investors began to sense that there would be a clearer path for central bank policy rates going forward. The primary catalyst for the rally was the US CPI inflation print - the year-on-year (YoY) inflation rate was expected to print at 7.9% YoY, however a rate of 7.7% YoY was announced instead. It was a more positive month for the Eurozone, although the regional outlook continued to be overshadowed by the risk of a recession and further geopolitical tensions due to the war in Ukraine. Global bond market sentiment was slightly negative in December, as investors continued assessing how much more central banks would need to tighten financial conditions to control inflation. The ECB increased the interest rate for the deposit rate, refinancing operations rate, and marginal lending facility rate by 50bps to 2.0%, 2.5% and 2.75% respectively. Over the quarter, the Fed raised the Federal Funds rate by 75bps and 50 bps to a target range of 4.25% to 4.50%.

The corporate bonds market has been affected by the rise in rates. The Investment Grade component recorded a loss of -17.17% in both Europe and -16.72% in the United States.

Apart from the passive mandate managed by Blackrock with the goal to replicate the benchmark above, the Sub-Fund is also investing in a small selection of third-party funds focused on specific segments of the corporate bond market, such as financials and hybrid bonds. The Algebris Financial Fund recorded a negative performance (ca. -10.61%) as did the fund managed by Vontobel which returned ca.-15.12%. Despite the large heterogeneity of these funds and the active style employed, the negative returns were mainly driven by the monetary policy implemented in Europe, the USA and emerging markets.

### **Effepilux Sicav - Corporate High Yield ed Obbligazionario Paesi emergenti**

The Sub-Fund invests in both high yield third party funds (ca.38.65%) and emerging market bond strategies in countries located in Latin America, Asia, Africa, the Middle East, and some areas of Eastern Europe where financial and capital markets are in a development phase. Overall, the Sub-Fund closed the year with a negative performance of -18.66% versus -16.81% of benchmark. The year-end Assets under Management stood at € 160.01Mln with a net inflow of €29Mln.

Regarding EM bond exposure, the "Hard Currency" (HC) component of the portfolio is covered by the mandate managed by Vontobel. In terms of performance, the portfolio generated a return of -18.85%, outperforming the benchmark by +1.29% on a net basis. In terms of the relative performance trajectory of the fund compared to the benchmark, the portfolio outperformed in the first and last quarters but suffered during the significant "cost of living" crisis of Q2 and Q3.

Overall, Vontobel observed three waves of risk aversion during 2022. Starting in Spring with the Russian invasion of Ukraine. After a brief recovery after the initial shock, eyes turned towards renewed Covid lockdowns in China, renewed tension in commodities markets and a broader "cost of living crisis" that really started to bite during the summer months. This was the second wave of risk aversion. A certain complacency returned over the latter part of summer as market participants started pricing a more dovish pivot from central banks who had been turning the screws since the start of the year, but these hopes were dashed by a hawkish stance at the Jackson Hole meeting and subsequent poor inflation readings/re-hawkish Fed messages through September, as well as a "disappointing" China party congress at the end of October, constituting the third risk off wave of the year.

However, market sentiment improved quite considerably in late autumn/early winter as China was pushed to revisit and abolish its zero covid policy, as well as starting to reflate its economy, beginning with the real estate sector. Moreover, inflation figures in many developed market countries (and specifically the US) started to cool, leading market participants to anticipate less hawkish central bank policy. Risk assets rallied as interest rates and the USD softened markedly.

Against this backdrop, market performance turned from two negative quarters in absolute terms between Q2 and Q3 to positive by year-end. On a full year 2022 basis the mainstream EM sovereign hard currency debt and the JPM EMBI GD EUR hedged, delivered a negative performance of -17.8% in USD.

Over the year, country allocation delivered the bulk of the positive relative performance. The spread between best and worst performing country was huge. At the start of the year, the portfolio was running a large underweight in Russia (largest country allocation contributor), whilst it was at the same time running a sizeable overweight in Ukraine (largest country allocation detractor). The most of out/under performances relative to benchmark were in the HY space. On the negative side, country allocation was also affected by some idiosyncratic stories such as Ghana (officially defaulted in Autumn on its Eurobonds), Turkey (underweight) and Ecuador, but these were somewhat limited given the strong year end rebound.

## Report of the Board of Directors of the Company (continued)

The duration/yield curve contributed positively too thanks to the broadly underweight duration in a rising rate environment whilst bond selection was negative.

In terms of bond choice, exposures to countries such as Bahamas, which had been negative all year, turned positive into the year end. Positive performances also came from countries in which the portfolio manager reinforced/taken positions a bit later in the year and which benefitted from the rebound, such as Kazakhstan and Pakistan. Negative bond selection was to a large extent concentrated in Ukraine where the GDP warrant was particularly affected by the invasion as was Naftogaz. This was to some degree mitigated by positive bond selection in Hungary and Mexico.

The high yield exposure is covered with a selection of third-party funds performed poorly, given the particularly negative market environment. The target funds globally underperformed, given the negative context provided by monetary policy. The fund managed by Morgan Stanley as well the one managed by Eurizon recorded the most negative performances (respectively ca. -14.98% and ca.-12.12%). The funds managed by Muzinich and Candriam, lost respectively -10.02% and -8.72%.

Finally, given challenges encountered by the servicer of a note issued by an Italian SPV with a diversified portfolio of Non-Performing Loans in recovering underlying credit, the decision was taken to sell the asset for roughly 4.28% of the notional value.

### Effepilux Sicav - Azionario

As in previous years, a significant part of the Sub-Fund (approximately 65%) is invested in a passive equity mandate managed by State Street Global Advisors. The investment strategy implemented a full replication investment methodology to deliver a performance as close as possible to the benchmark which is monthly reweighted (51% MSCI Europe SRI, 34% MSCI North America SRI, 15% MSCI Pacific SRI) hedged back to Euro.

During 2022, the following took place over the course of the year: four contributions were made to the portfolio managed by State Street (on 12th, 26th, and 31st January and 16th November) totalling €136m; 5% of the total trades were executed using internal cross thereby avoiding market impact and commission.

Over the year, the portfolio returned -16.07% (EUR, net of fees) while the Index returned -17.23%(EUR). On an unhedged basis, the MSCI Europe SRI Index (EUR, Net) returned -13.42%, MSCI North America SRI Index (EUR, Net) returned -18.91% and MSCI Pacific SRI Index (EUR, Net) returned -12.87%.

Over the reporting period, the MSCI All Country World Index was down by -18.35%, in USD. The MSCI World Index (-18.13%, in USD) significantly outperformed emerging market equities, as measured by MSCI Emerging Markets Index (-20.08%, in USD). Global economic growth and equity markets faced multiple headwinds during 2022. While the year started off by overcoming concerns about potential virus-driven restrictions given the initial successful roll out of vaccinations and the promise of a fiscal and monetary stimuli which lifted investor sentiments, Russia's unprecedented invasion of Ukraine in February 2022 shook the markets tremendously worldwide. Commodity prices accelerated in an upward trend as western countries imposed strict sanctions on Russia's economy. Europe and the rest of the world's dependency on Russia and Ukraine for oil, gas, wheat and other basic commodities were tested, with a sharp decline of exports of these commodities from the region to the rest of the world, thus leading to soaring inflation.

The war's direct impact was on inflation which skyrocketed across the globe. Central Banks reacted to the rising inflation through an aggressive monetary policy. Central Banks remained in tightening mode with 54 rate-hiking actions globally in June 2022 – an all-time high. By the end of 2022, the US Fed had raised its benchmark interest rate to a targeted range between 4.25% and 4.5%, which was at a target range of 0%-0.25% at the end of 2021. US Inflation peaked to its highest level in more than 40 years. US CPI was at 7.1% year-on-year by 2022 end. Similar rate hikes were undertaken by the European Central Bank (ECB), Reserve Bank of Australia, Bank of England, and other Central Banks across the world. Growth decelerated globally and recession loomed in the shadows, with UK already facing its longest running recession since records began a century ago.

Global economic activity continued to expand in the fourth quarter, albeit at a measurably moderate pace, with several factors contributing to multiple headwinds.

## Report of the Board of Directors of the Company (continued)

European equities (excluding the UK) returned -17.98% (in USD) in 2022. Early in the year, European equities were opposed by disruptions because of the Russia-Ukraine conflict and in energy supplies as around 25% of Europe's crude oil imports and 40% of natural gas imports come from Russia. During the early half of the year, the market priced in the expected significant rate hikes from the European Central Bank (ECB), while the difference between the rate at which the Italian and German governments could borrow widened materially. The increasing vaccination rate bolstered prospects for a strong economic rebound and Eurozone PMIs reached multi-year highs in many regions. Despite a 0.6% contraction in the first quarter, optimistic consumer sentiment supported by a rise in April's measure of confidence proved that resilient spending that would boost retail sales could be expected.

The European Central Bank (ECB) kept its monetary policy unchanged but increased the size of its planned asset purchases by €500 billion to €1,850 billion and extended the horizon over which it will make these purchases by nine months to end-March 2022. Moving into the third quarter, hospitalization rates remained lower than the previous waves in Europe, as 70% of the population was vaccinated. However, the rapid rise in cases due to the spread of the Delta variant had a negative effect on consumer confidence during the quarter which can also be verified by the worst performance of the consumer discretionary sector within the region. Industrial production struggled due to semiconductor shortages where the effect was most prominent in the automotive sector, notably in Germany. Industrial production rates in general returned to their pre-pandemic levels. Higher energy prices added to the rise in inflation in the region with inflation rising to 4.9% YoY in November, the highest reading since July 1991. On the positive side, the Euro area manufacturing PMI flash survey was recorded at 58.0, indicating a healthy expansion in the sector.

UK equities returned -5.16% (in USD) in 2022. In the UK, equity markets experienced significant volatility during 2022, with UK entering a recessionary phase by the end of 2022. While the UK is less dependent on Russian energy imports than its European counterparts, it continues to be a heavy user of oil and gas. UK inflation hit a 40-year high of 10.7% during Q4. The rising cost of food, fuel and energy was the most significant contributor to the rise in inflation. Bank of England (BOE) tackled the rising inflation by increasing the key monetary rates 9 times during the year. The fourth quarter of 2022 especially started with some turmoil for UK. Liz Truss replaced Boris Johnson as the Prime Minister. However, her controversial economic plan of implementing tax cuts, in an inflationary environment was quickly rejected by investors. The UK stock markets plummeted, and British pound touched a record low of \$1.035. By the end of October, UK had its third Prime Minister, with Liz Truss replaced by Rishi Sunak. The new chancellor Jeremy Hunt provided near-term fiscal support in his autumn statement. This statement came with a promise for the country to tighten its belt in the future and was supported by fiscal and economic forecasts from the independent Office for Budgetary Responsibility.

US equities experienced a decline in performance during 2022, with the S&P 500 returning -18.52% (in USD). US consumer sentiment was hit due to higher prices, as inflation rose to 7.9%, reaching a 40-year high. US Fed announced its first rate hike, since 2018, during early 2022. These rate hikes continued through 2022, with the latest hike announced in December 2022. Signs of higher interest rates weighing on economic activity could be observed from 40% higher house prices compared with the start of 2020. Economic data also confirmed a decline in the number of home sales. In addition, tensions between the US and China over Taiwan continued to rise. Some interventionist developments caused worry that a (debt) financialized global economy might be unable to withstand the ferocity of the tightening cycle. By the end of 2022, S&P 500 earnings estimates saw reductions, primarily driven by rising costs rather than declining sales. The estimated Q4 2022 earnings for the S&P 500 declined by 4.7% vs Q3. The S&P Global US Manufacturing PMI remained unrevised at 46.2 in December 2022, pointing to a contraction in factory activity. Mid-cap companies performed in line with their larger counterparts during the quarter, while small-cap companies lagged on a relative basis.

MSCI Pacific returned -17.14% (in USD) in 2022. During the first half of 2022, investor sentiment turned increasingly downbeat amid concerns that rising global inflation and ongoing supply chain problems, accentuated by the Russia-Ukraine war, could tip the world into recession. The yen weakened sharply against the US dollar, breaching the 130 level for the first time in 20 years. Japan's equity market in the quarter was primarily driven by news flow on monetary policy and currency markets, together with concerns over the growing possibility of a US recession. The BoJ in its policy meeting on 18 April maintained its policy stance. The yen weakened continuously against the US dollar, breaching the 140 level for the first time since 1998. Australia and New Zealand had a good start to the year, with strong currency movement and robust commodity exports.

## Report of the Board of Directors of the Company (continued)

High employment levels and the economic and geographical distance from Europe, helped keep the Australian economy relatively resilient, but not immune to global trends of rising inflation. Elsewhere, an unexpected announcement by the BoJ in December to widen the band around the long-term bond yield target surprised the global financial community. Against this announcement, the yen strengthened against the US dollar by nearly 4%. While this was a small yet unexpected step toward a probable policy normalization by BoJ, Japan's manufacturing activity shrank, as per PMI estimates released in December.

Apart from the equity portfolio managed by State Street, the Sub-Fund is also invested in a low volatility equity funds portfolio that looks to reduce the overall volatility of the Sub-Fund. In a particularly negative environment as the one experienced in 2022 such defensive component of the Sub-Fund underperformed the overall equity market. The Emerging Market area, with funds Schroder Asia EM and Vontobel Sustainable EM, reported negative results of 14.66% and 21.16% respectively, the only fund with a positive return of 189 bps was the Pictet Agorà Fund. The target funds that recorded the most negative performances are Robeco Chinese (ca. -27.99%) and the Robeco Conservative Equities funds (ca.-11.03%).

The whole Sub-Fund closed the year with a negative return of -16.22% versus -16.11% of its benchmark with an excess return YTD of -0.11%. The AUM of the sub-fund at the end of the year was approximately €738.37 Mln with a net inflow of €259.10 Mln.

### Effepilux Sicav - Liquid Alternatives

Following a difficult 2022, overall performance of the sub-fund closed the year with a negative return of -4.85%. Overall, the AUM of the sub-fund at the end of the year was €172.37 Mln with a net inflow of €33.50Mln. There is no benchmark for this sub-fund.

The sub-fund is invested in a selection performed by Fondaco Lux of alternative strategies available in liquid UCITS compliant format among which Equity Long/Short, Event Driven, Global Macro, Managed Futures and Diversified Risk Premia seeking uncorrelated solutions to diversify exposure away from traditional equity and fixed income investments.

In 2022, global equity markets experienced negative performance as the Russia-Ukraine war led to a spike in energy and food prices and further exacerbated supply chain issues. Europe and the rest of the world's dependency on Russia and Ukraine for oil, gas, wheat, and other basic commodities was tested, with a sharp decline of exports of these commodities from the region to the rest of the world, thus leading to soaring inflation.

In this context, the funds performed poorly with a few exceptions. The target funds recording the most negative performance are JPMorgan Global Macro Opportunities (ca. -11.38%) and the Ambienta X Alpha fund (ca.-11.14%), while on the contrary, the target funds that recorded the most gains are H2O Vivace (ca. 23.77%) and Lumyna MW Tops Ucits fund (4.45%).

### Effepilux Sicav - Thematic Investments

The Sub-Fund Thematic Investments, launched at the beginning of 2022, is a fund of funds directly managed by the management company investing mainly in UCITS and other UCIs or ETFs employing an active equity strategy with a thematic approach, i.e., an unconstrained equity portfolio focused on companies with an attractive risk/return profile benefitting, among others, from demographic, technological, environmental, or other long term global trends. On an ancillary basis it may invest directly in equity securities selected using the same thematic approach, within the same investment universe of the funds mentioned above (without sector or geographic limitation).

In view to maximize the ESG level of the portfolio, for these investments, environmental, social and governance (ESG) principles are applied at the third-party funds selection to ensure that the investments comply with the ESG investments.

The sub-fund was launched in January 2022 with a subscription of €168.7Mln. followed by three additional subscriptions recorded during the year.

At year end the portfolio was composed of 9 target open-end funds focused on specific thematic investment approaches like robotics, resources or new alternative materials and energy, etc.

## Report of the Board of Directors of the Company (continued)

The Sub-Fund has been particularly affected by the drawdown of the equity market. Moreover, at the sectoral level, the dispersion of returns was wide, with the energy sector closing positively by 60%, while on the contrary the losses of telecommunications companies (-40%), consumer discretionary (-37%) and technological (-27%) stand out.

The funds recording the most negative performance are BlackRock Next Generation (ca. -47.90%) and the Natixis Thematic AI and Robotics fund (ca.-30.50%). Such returns have been partially compensated by less negative performances of Lombard Odier Golden Age fund as well as some Robeco funds on Water and Smart Materials.

Following a difficult 2022, overall performance of the sub-fund closed the year with a negative return of -21.05%. Overall, the AUM of the sub-fund at the end of the year was approximately €146.26Mln, compared with a net inflow of €181.70Mln. There is no benchmark for this sub-fund.

## REPORT OF THE *REVISEUR D'ENTREPRISES AGREE*

### Opinion

We have audited the financial statements of Effepilux SICAV (the “Company”) and of each of its sub-funds, which comprise the statement of net assets and the statement of investments and other net assets as at December 31, 2022 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company and of each of its sub-funds as at December 31, 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### Basis for Opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (Law of July 23, 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “*Commission de Surveillance du Secteur Financier*” (CSSF). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the *réviseur d'entreprises agréé*” for the Audit of the Financial Statements” section of our report. We are also independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Other information**

The Board of Directors of the Company is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the “*réviseur d’entreprises agréé*” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

## **Responsibilities of the Board of Directors of the Company for the Financial Statements**

The Board of Directors of the Company is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Company is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Company either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

## **Responsibilities of the “*réviseur d’entreprises agréé*” for the Audit of the Financial Statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “*réviseur d’entreprises agréé*” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Company.
- Conclude on the appropriateness of the Board of Directors of the Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The investment objective of the Sub-Fund Effepilux Sicav - Thematic Investments is the increase of invested capital in the long term, involving high level of risk, mainly through the investment in equity markets.

There is no guarantee that this objective will be achieved.

### 2 - Significant accounting policies

#### 2.1 Presentation of financial statements

The financial statements are presented in accordance with generally accepted accounting principles and legal reporting requirements in Luxembourg, relating to undertakings for collective investment in transferable securities.

#### 2.2 Valuation of investment in securities

2.2.1 The value of any cash on hand or on deposit bills and demand notes and accounts receivable, prepaid expenses, cash dividends, interest declared or accrued and not yet received, are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

2.2.2 Securities listed on a recognised stock exchange or dealt on any other Regulated Market that operates regularly, is recognised and is open to the public, are valued at their last available prices, or, in the event that there should be several such markets, on the basis of their last available prices on the main market for the relevant security.

2.2.3 In the event that the last available price does not, in the opinion of the Board of Directors of the Company, truly reflect the fair market value of the relevant securities, the value of such securities is defined by the Board of Directors of the Company based on the reasonably foreseeable sales proceeds determined prudently and in good faith.

## Notes to the financial statements (continued)

2.2.4 Securities not listed or traded on a stock exchange or not dealt on another Regulated Market are valued on the basis of the probable sales proceeds determined prudently and in good faith by the Board of Directors of the Company.

2.2.5 The liquidating value of futures, forward or options contracts not traded on exchanges or on other Regulated Markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors of the Company, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward or options contracts traded on exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures, forward or options contracts are traded by the Company; provided that if a futures, forward or options contract could not be liquidated on the day with respect to which Net Assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors of the Company may deem fair and reasonable.

2.2.6 Money Market Instruments not listed or trade on a stock exchange or not dealt with on another Regulated Market are valued at their face value with interest accrued.

2.2.7 In case of short term instruments which have a maturity of less than 90 days, the value of the instrument based on the net acquisition cost, is gradually adjusted to the repurchase price thereof. In the event of material changes in market conditions, the valuation basis of the investment is adjusted to the new market yields.

2.2.8 Interest rate swaps are valued at their market value established by reference to the applicable interest rates curve. Swaps pegged to indexes or financial instruments are valued at their market value, based on the applicable index or financial instrument. The valuation of the swaps tied to such indexes or financial instruments are based upon the market value of said swaps, in accordance with the procedures laid down by the Board of Directors of the Company.

Credit default swaps are valued on a daily basis founding on a market value obtained by external price providers. The calculation of the market value is based on the credit risk of the counterparty, the reference entity, the maturity of the credit default swap and its liquidity on the secondary market.

The valuation of Inflation Swaps is performed using the discounted cash flows method. The future levels of the inflation index are estimated by matching yearly forward prices while taking into account seasonality effects (on a monthly basis).

2.2.9 Investments in open-ended UCI are valued on the basis of the last available prices of the units or shares of such UCI.

2.2.10 All other Transferable Securities and other permitted assets are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors of the Company.

### 2.3 Net realised gains or losses resulting from securities sold

The realised gains or losses resulting from securities sold are calculated on the basis of average cost of the investment sold.

### 2.4 Foreign exchange translation

The accounts are maintained in euro ("EUR") and the financial statements are expressed in that currency.

Cost of investments in currencies other than the EUR is converted in EUR at the exchange rates prevailing on the date of purchase.

Income or expenses expressed in currencies other than the EUR are converted at exchange rates ruling at the transaction date.

Assets and liabilities expressed in other currencies than the EUR are converted at exchange rate ruling at year-end.

### 2.5 Income

Dividends are credited to income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis, net of withholding tax.

### 2.6 Formation expenses

Formation expenses are amortised over a maximum period of five years.

Formation expenses are totally amortised.

## Notes to the financial statements (continued)

### 2.7 Forward foreign exchange contracts

Forward foreign exchange contracts are valued at the forward rate applicable at the Statement of Net Assets date for the remaining period until maturity. Unrealised gains or losses resulting from outstanding forward foreign exchange contracts, if any, are recorded in the Statement of Net Assets. The net realised gains or losses or change in net unrealised gains or losses on forward foreign contracts are recognised in the Statement of Operations and Changes in Net Assets.

### 2.8 Financial Futures contracts

Futures contracts are disclosed in the Statement of Net Assets under the item "Unrealised appreciation on financial futures contracts" and "Unrealised depreciation on financial futures contracts".

Change in net unrealised profit/ loss and net realised gain/loss are recorded in the Statement of Operations and Changes in Net Assets.

### 2.9 Swaps contracts

Swaps contracts are posted off-balance sheet and valued on the basis of the recalculated market prices by using the traditional elements of pricing considering the value, the volatility of the underlying, the interest rates and the residual value of the swap.

Swaps are disclosed in the Statement of Net Assets under caption "swaps at market value". Unrealised gains/ losses on swaps and net realised gains/losses on swaps are recorded in the Statement of Operations and Changes in Net Assets and include when applicable interests received and paid on swaps.

### 2.10 Options contracts

Premiums received on written options are recorded as liabilities and premiums paid on the purchase of options are recorded as assets in the Statement of Net Assets. Outstanding listed option contracts at year-end are valued at the last settlement or close price on the stock exchanges or regulated markets, the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative. Change in net unrealised profit/loss and net realised gains and losses on options are recorded in the Statement of Operations and Changes in Net Assets.

### 2.11 Combined financial statements

The combined Statement of Net Assets and combined Statement of Operations and Changes in Net Assets represent the total of the Statements of Net Assets and Statements of Operations and Changes in Net Assets of the individual Sub-Funds. For this purpose, all figures expressed in another currency than EUR are converted into EUR at the rates used at the closing date.

## 3 - Management and performance fees

The investment management fees are paid out of the assets of each Sub-Fund to the relevant Investment Manager following the periodicity set forth in the appendix of the prospectus for the relevant Sub-Fund, and calculated for each Sub-Fund (or for each Class of Shares within each Sub-Fund if applicable) on the average of the Net Asset Value of each Sub-Fund (or each class of shares) over the period as set out in the Investment Management Agreement. The annual maximum rate of such fees is determined for each Sub-Fund in an appendix to the relevant Investment Management Agreement.

| Sub-Funds   | Investment Managers                          | Annual maximum fee |
|---|--|--------------------|
| Effepilux Sicav - Investimenti a breve termine                            | Amundi SGR S.P.A.                            | 0.07%              |
|   | Amundi SGR S.P.A.                            | 0.07%              |
| Effepilux Sicav - Titoli di Stato ed inflazione                           | Credit Suisse                                | 0.095%             |
|   | Fondaco SGR S.p.A.                           | 0.40%              |
| Effepilux Sicav - Corporate IG Mondo                                      | BlackRock Investment Management (UK) Limited | 0.09%              |
| Effepilux Sicav - Corporate High Yield ed Obbligazionario Paesi emergenti | Vontobel Asset Management A.G.               | 0.25%              |
| Effepilux Sicav - Azionario   | State Street Global Advisors                 | 0.12%              |
| Effepilux Sicav - Liquid Alternatives                                     | Fondaco Lux SA                               | 0.00%              |
| Effepilux Sicav - Thematic Investments                                    | Fondaco Lux SA                               | 0.10%              |

**Notes to the financial statements (continued)**

Additional management fees can be paid to the Investment Managers of some underlying funds. Those fees are paid, out of the assets invested by each Sub-Funds, in each underlying funds.

In case an Investment Manager invests portion of the assets under its responsibility within a sub-fund in funds that are managed directly or by delegation by the same Investment Manager or any other company by which the same Investment Manager is linked by common management or control there will be no duplication of management fees.

Moreover, the Sub-Funds invests also part of its assets in units of other UCITS and/or UCIs for which the maximum level of management fees paid by the sub-funds is the following:

| <b>Sub-Funds</b>  |       |
|---|-------|
| Effepilux Sicav - Investimenti a breve termine                            | 0.48% |
| Effepilux Sicav - Titoli di Stato ed inflazione                           | 0.90% |
| Effepilux Sicav - Corporate IG Mondo                                      | 0.55% |
| Effepilux Sicav - Corporate High Yield ed Obbligazionario Paesi emergenti | 1.00% |
| Effepilux Sicav - Azionario   | 1.10% |
| Effepilux Sicav - Liquid Alternatives                                     | 2.00% |
| Effepilux Sicav - Thematic Investments                                    | 1.21% |

A Management Company Fee of up to 0.04% per annum of the net assets of each Sub-Fund will be paid to the Management Company by the Company on a quarterly basis as set out in the Management Company Agreement.

For Sub-Fund Effepilux Sicav - Titoli di Stato ed inflazione:

The Performance Fee payable to the Investment Manager Fondaco Sgr is equal to 10% of the extra return of the Net Asset Value (prior to the accrual of the performance fee net off all costs) above the High Water Mark. The Performance Fee shall be crystalized and paid annually as stated in the details of the Investment Management Agreement. The Performance Fee shall be calculated and paid annually as stated in the details of the Investment Management Agreement. The Performance fee will be calculated as the product of the average net assets of the Sub-Fund (prior to the accrual of the Performance Fee) and the 10% of the extra return. The high water mark is the higher of (i) the net asset value as of September 15, 2017 or the date on the commencement by the investment manager to manage the account if different from the previous date, and (ii) the last net asset value as of which a performance fee was paid. No performance fees have been paid in this Sub-Fund for the year ended December 31, 2022.

For Sub-Fund Effepilux Sicav - Corporate High Yield ed Obbligazionario Paesi emergenti:

The Performance Fee payable to the Investment Manager Vontobel Asset Management A.G. is equal to 20% of the extra return (vs the benchmark) of the portion of Net Asset Value (prior to the accrual of the performance fee net off all costs) above the Historical High-Water Mark. The calculation of performance fees is done on the basis of December 31 of the Net Asset Value and therefore the amount of performance fees booked is related to prior year performance. The Performance fee will be calculated as the product of the average net assets of the Sub-Fund (prior to the accrual of the Performance Fee) and the 20% of the extra return above the Historical High-Water Mark. The Historical High Water Mark is the highest Net Asset Value since the date of commencement by the Investment Manager to manage the account ("Commencement Date"), provided that the performance fee is payable only if the level of the indicative benchmark is also itself above the indicative benchmark for which a performance fee was paid since the Commencement Date. The calculation of performance fees is done on the basis of December 31 of the Net Asset Value and therefore this amount of performance is related to performance of 2020. No performance fees have been paid in this Sub-Fund for the year ended December 31, 2022.

**4 - Depositary, Administrative, Registrar Agent and other fees**

As Administrative Agent, Société Générale Luxembourg is entitled to receive fees and commissions for its services rendered to each Sub-Fund according to the market practices in Luxembourg and based on the average Net Asset Value of each Sub-Fund quarterly at the maximal annual rate of 0.031% (VAT exempted) as per the Administrative Agent Agreement in force at anytime. The effective rate applied as at December 31, 2022 is 0.02373%.

## Notes to the financial statements (continued)

Société Générale Luxembourg being the Registrar Agent of the Company, is entitled to receive fees and commissions for its services rendered to each Sub-Fund according to the market practices in Luxembourg. The Company pays the Registrar Agent a base fee per Sub-Fund per month of 250 EUR plus fees per dividend payment as well as transaction and account fees (VAT exempted) as per the Registrar Agent Agreement in force at anytime.

As Depositary and Paying Agent, Société Générale Luxembourg is entitled to receive a fee for its services rendered to each Sub-Fund. Such fee is payable, by each Sub-Fund, quarterly and calculated on the average Net Asset Value of the Sub-Fund at the maximal annual rate of 0.30% (VAT exempted) as per the Depositary bank and Paying Agent Agreement in force at any time. The effective rate applied as at December 31, 2022 is 0.01801%.

### 5 - Taxation

Aside from the subscription tax, no tax or charge is payable in Luxembourg following the issue of shares, except for a capital duty of 1,250 EUR which was paid by the Company on incorporation. Under Luxembourg law, no tax is payable in Luxembourg on capital gains made in respect of any shares. Additionally, based on art. 175c) of the Luxembourg Law of 17 December 2010 as amended, the Company is exempt from the subscription tax given its statutes and targeted investors.

Some Company income (in the form of dividends, interest or capital gains from sources outside Luxembourg) may be subject to withholding tax, at a variable rate, which may not be recoverable.

## Notes to the financial statements (continued)

### 6 - Financial futures contracts

As at December 31, 2022, the Company holds the following open futures contracts:

|            |          |                  |          |              |          |              | 1 093 816        | 59 500 000     |

The counterparty of the options contracts are Société Générale, Crédit Agricole and Morgan Stanley.

## 9 - Securities lending

The Company may enter into securities lending and borrowing transactions provided that it complies with the following rules:

- The Company may only lend or borrow securities either directly or through a standardised lending system organised by a recognised clearing institution or through a lending system organised by a financial institution subject to prudential supervision rules which are considered by the CSSF as equivalent to those provided by EU law and specialised in this type of transaction.

## Notes to the financial statements (continued)

- As part of lending transactions, the Company must receive a guarantee, the value of which must constantly during the contract be at least 90% of the value of the securities lent.

As at December 31, 2022 all securities lent are collateralised with only listed shares.

The market value of the securities lent was as follows:

| Sub-Funds                                       | Market Value of securities lent (EUR) |
|---|---------------------------------------|
| Effepilux Sicav - Investimenti a breve termine  | 11 999 042                            |
| Effepilux Sicav - Titoli di Stato ed inflazione | 145 319 688                           |
| Effepilux Sicav - Corporate IG Mondo            | 39 800                                |
| Effepilux Sicav - Azionario                     | 52 377 355                            |

The counterparty is Société Générale (FR).

Counterparty country is listed following the ISO 3166-1 standard.

The amount of non-cash collateral for Equity and Bond Lending Program is detailed as follows:

### Effepilux Sicav - Investimenti a breve termine

### **Sustainable Finance Disclosures Regulation (“SFDR”)**

All the sub-funds are classified according to the EU Regulation 2019/2088 on sustainability-related disclosures in the financial sector (“SFDR”) as art 6. In this respect the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities. More details are reported below.

### **Effepilux Sicav - Effepilux Breve Termine**

The sub-fund is classified according to the EU Regulation 2019/2088 on sustainability-related disclosures in the financial sector (“SFDR”) as art 6, being a portfolio in which ESG risk factors are taken into consideration in the portfolio management activity and sustainability risks are integrated in investment management decisions. In this case there may not be precise limitation, exclusion in the investment universe or qualitative and quantitative limits imposed by the prospectus in relation to ESG risks. As a consequence, all entities acting on behalf of the Company, involved in taking investment decisions follow such principles. By responsible investment it means the integration of environmental, social and corporate governance (ESG) considerations into investment management processes, applying these principles. The application of such principles is binding in the selection of the investments.

In particular, the ESG principles are applied in the selection of the delegated investment manager (considering for example that asset managers are compliant with the United Nations Principles for Responsible Investments (PRI) and that the use ESG factors in the selection of the target investments are positively considered) as well as in the selection of target UCITS/UCIs in which the sub-fund is invested. At year-end the delegated investment manager of the sub-fund is compliant with the PRI and the target UCITS/UCIs in the portfolio are monitored from an ESG risk profile point of view with the goal to progressively increase of number of ESG oriented positions.

### **Effepilux Sicav - Effepilux Titoli di Stato ed Inflazione**

The sub-fund is classified according to the EU Regulation 2019/2088 on sustainability-related disclosures in the financial sector (“SFDR”) as art 6, being a portfolio in which ESG risk factors are taken into consideration in the portfolio management activity and sustainability risks are integrated in investment management decisions.
